APC Technology (APCT) use advanced manufacturing techniques to specialise in the design and manufacture of state of the art computer & control technology solutions. APCT has over 30 years of proven capability supplying to the aerospace, aviation and defence sectors including naval, airborne, mission critical and land warfare. APC Technology also offers a dedicated in-house research & development team as well as legacy/obsolescence services.

## ▶ CAPABILITIES

- Customisation Specialist
- Hardware & Software
- Engineering / Integration
- Prototyping
- 3D Printing & Design
- Project Management
- Quality of Life Systems
- Sensor Fusion Systems
- Communication/Intercom systems
- Manufacturing Facilities
- Testing Facilities
- Sustainment
- Through Life Planning & Support
- Research & Development

## ▶ EXAMPLE OF SOLUTIONS

Displays & Panel PCs » Consoles » Fanless PCs » UPSs » NVIS » Quality of Life Systems » Thin Clients » Trackballs & Keyboards » Generators » Rackmounts » Cabinets » » Communication/Intercom Systems» Sensor Fusion Systems » Mission Systems » MOTS, COTS & Customised Options »

## ▶ KEY PARTNERS

- Singapore Technologies Aerospace
- Australian Defence Force
- GreenHills Software
- Cursor Controls
- Aitech
- Acacia Research
- Defence Teaming Centre SMEs
- Major Australian & Overseas Defence Primes
- Major Gas, Oil & Mining Companies

## ▶ KEY CUSTOMERS

- Raytheon/SEA 1654– radio operator consoles
- AMSA Challenger/Cobham- mission systems- various
- Coast Watch – MIL-SPEC computers, displays, keyboard trackballs
- P3 Orion – ESM upgrade
- Avalon- displays, keyboards, rackmount PC's
- AWD- multiple projects
- ST Engineering – 3 in 1 tactical display
- Collins Class – message handling- various
- ANZAC – message handling – various
- ST Kinetics - 20.1" displays
- Trojans -BMS systems

## ▶ DISCRIMINATORS

- Dedicated, dynamic management team responsive to customers
- Proven In house design, test & engineering expertise
- MOTS, COTS and full customisation options
- Local repair & support capability
- In house environmental test capability
- Proven obsolescence replacement
- Design & manufacturing capability for legacy systems
- Non ITAR reliant solutions
- Advanced manufacturing techniques
- MIL-SPEC, IECEx and GVA compliant solutions
- 3D printed parts for rapid prototyping

## ▶ QUALITY APPROVALS & AWARDS

- ISO9001 certified/ 9100 in progress
- Recognised supplier to the Australian Defence Force & Team Australia
- Proven design & manufactured solutions to MIL-SPEC 810, 461, 1275, 704, 901 and numerous other applicable standards
- GVA compliant solutions
- Participant of inaugural Virtual Shipyard Program
- Australian manufacturer of IECEx certified solutions
- Member of the Defence Teaming Centre, Australian Aerospace Alliance, Submarine Institute Australia, Specialist Vehicle Alliance and AIDN Membership
