LogiCamms is an ASX listed (ASX: LCM) company delivering end to end solutions from process design through to operations and maintenance. As a multidisciplinary engineering company we provide control systems, E&I, environmental, business intelligence and consulting services, with the ability to train and support your organisation under our RTO business.

## ▶ CAPABILITIES

LogiCamms is a multidisciplinary engineering company focussing on three main business lines namely Consult, Deliver and Maintain. Specifically, this includes:

- Multidiscipline engineering - environmental, mechanical, process, structural
- Automation, Control, Communications and Instrumentation systems.
- Asset management and maintenance services.
- Hazardous Area, Environmental Assessment and Compliance engineering.
- Digital ready, IoT, operational intelligence and 3D design.
- Software engineering, development and integration. With an internal R&D/Innovation capability to develop bespoke applications, including Geospatial Information Systems (GIS) and Big Data Analysis.

## ▶ KEY CUSTOMERS

- BAE Systems
- RAAF
- SA Water
- Santos
- OZ Minerals
- BHP Billiton
- Rio Tinto
- Chevron
- Origin
- WA Water Corporation
- APA / Jemena

## ▶ KEY MARKETS (Local / International & Potential)

- LogiCamms operates across sectors including Water, Mining, Hydrocarbons, Infrastructure and Defence in Australia, New Zealand and PNG.
- Our South Australian operations include Adelaide and Whyalla. This enables us to operate within close proximity of clients to ensure ongoing local knowledge and support.
- Collaboration and partnerships with SMEs, OEMs and Primes in acquisition and infrastructure to become an integral part of their supply chain. This supplements our achievements in the Defence support and maintenance space.

## ▶ DISCRIMINATORS

- 'One Stop Shop' – From Conception to Build to Operate and Maintain. We have the ability to assist clients throughout the project life cycle of their assets.
- In-house project execution. Provide continuous improvement in project delivery through systems, processes and resources that are fully scalable.
- 30 + Years experience.
- ASX listed company, with a national presence including regional Australia.
- A dedicated Registered Training Organisation (RTO).
- Digital Capabilities.
- In-house multidisciplinary engineering and execution capability.
- Supplier agnostic – we maintain key relationships with fabricators, assemblers and suppliers.

## ▶ QUALITY APPROVALS & AWARDS

- ISO9001:2008
- ISO14001:2015
- OHSAS18001:2007
- AS4801:2001
- RTO Registration # 31299
- Defence Panel Memberships

## ▶ DEMONSTRATED PERFORMANCE – Last 3 years

**60% of all projects have been firm fixed price contracts**

PERFORMANCE: All run to contract

**40% of all projects have been capped reimbursable contracts**

PERFORMANCE: Average 14% returned to client

### ► DEFENCE PROJECTS – COMPLETED SAMPLE

#### Petrochemical Specialist at HMAS Coonawarra
